

Problems / Solutions

Green Pool = Bacteria

To Decrease pH, use Muriatic Acid

Causes the pH to Increase:

- Excessive Rain.
- Chlorine that contains Calcium.

Bad Circulation:
Direct the Jets 45° Down and to the Right

Water Circulation and PH Level

Filtration: Backwash Twice Weekly.

Oil: Dissolve Liquid Soap with 10 parts water and spray over the surface of the pool.

Sand: Change the Filter Sand every 2 years.

Filter 1/3 Water 2/3 Sand

To Increase the pH use Calcium Hypochlorite

Pool White Color

Size of the Holes and Position
Produces the Patented Vortex

Right Position

The Water Flow through the Capsule, produces the Patented Vortex

IONIZATION 'FOR' LIFE
Minerals

- Cu⁺⁺
- Ag⁺⁺
- C
- PI
- Zn

C (Carbon): Insulation
PI (Pladium): Catalyst
Ag⁺⁺ (Silver): Prevents Virus
Cu⁺⁺ (Copper): Prevents Bacteria
Zn (Zinc): Sacrificial Anode

How Ionization Effects MicroOrganisms in Water

Head of a Pin

- 5 Microns (size of a Pin Head)
- Cryptosporidium - 1 micron
- Bacteria - 0.2 to 1 Micron
- Viruses - 0.004 to 1 Micron
- Other Dissolved Pollutants: Nitrate / Nitrites: 0.001 to 0.005 Microns

Algae
Accumulation of Bacteria

Bacteria

Virus

Sound Waves Produced by the Patented Vortex

Sound Wave destroy the Outer Membrane of Viruses

Ionization Destroys the Inner Nucleus

Membrane Protects the Organism with little or no affect from Chemicals

Approved by US EPA & Costa Rica Ministry of Health

Golden Egg - Water System

Little Batteries up to 5 Gallons

Fill a Clean Bottle *up to 5 Gallons of Water Bottle to the RED line as indicated in the above Diagram

Insert into the Bottle the Golden Egg

Cover the Bottle with a Cloth so that the Chlorine can Evaporate Then place the Bottle in Direct or Indirect Sunlight for the Next 24-Hours.

After 24 hours, stir or mix the Water in order to completely distribute the Concentrated Ionization throughout the container. Within seconds, the water will be Completely Ionized and consequently Disinfected. You will also notice that the Water becomes Sparkling Clear with a Clean, Sweet, Natural Taste and Smell.

5-gallons of ordinary Tap Water within a period of 24 hours; 1-gallon of ordinary Tap Water* in just 5-hours and 1-liter of ordinary Tap Water* within a period of 1 1/2-hours.

The Difference between the GoldenEgg and the BlueEgg

- The GoldenEgg assures Purification of Contaminated Water and to Prevent Virus & Bacteria
- The BlueEgg assures Purified Tap Water in order to Prevent the Growth of Bacteria

Water Test with Golden Egg

Contaminated Water 12-hours later 24-hours later

DISTRIBUTED ON 37 COUNTRIES WORLDWIDE

Costa Rica Certification

EPA Est. Number 075702-CRI-00
